## SHARED ACCOUNTABILITY

### SUPPORT – VISION 20/20 ALLOWS CURRENT EDUCATION REPRESENTATION ON ILLINOIS STATE BOARD OF EDUCATION

As public educators we believe allowing practicing educators to serve on ISBE provides professional expertise that would help guide the implementation of state initiatives and help ensure that oversight and regulatory efforts positively impact student learning.

This proposal expands the Educator Role and Responsibility in State Governance.

Provides that, for the State Board of Education appointments made after the effective date of the amendatory Act, 3 of the members of the State Board must represent the educator community. Currently the State Board of Education consists of 8 members and a chairperson.

This legislation allows for regional representation: **1 member that represents the educator community** shall be selected from among those counties of the State other than Cook County and the 5 counties contiguous to Cook County; **1 member that represents the educator community** shall be selected from Cook County that represents that part of Cook County which lies outside the city limits of Chicago; and **1 member that represents the educator community** shall be selected from among the 5 counties of the State that are contiguous to Cook County.

**With respect to the educator community appointments, no more than one member may be employed as a district superintendent, principal, school business official, or teacher and no more than one may be employed by the same school district or school.**
